# Checklist delivering studio Leiden.

[studentexperience.com](https://studentexperience.com)

Too bad! You are leaving Student Experience and this means you can save costs by delivering your studio clean, intact and complete. The better you leave it behind, the more costs you save!

## Step 1: Living area

### Tips & tricks before you start with the living area:

- Use hot soapy water and a wet cloth to clean everything. You may NOT use a scrubbing pad (sanding sponge) in your living area.
- Make sure you buy the right items. [See the checklist and appendix.](#) Are you unsure about the items you want to use? Please contact the duty manager.

- ☐ Your walls are stain-free and in the same condition as they were upon arrival.
- ☐ Your kitchen wall is stain-free and in the same condition as it was upon arrival.
- ☐ Your ceiling is stain-free and in the same condition as it was upon arrival.
- ☐ Your sockets and switches are fixed properly and undamaged.
- ☐ Your doorbell/intercom is present and works.
- ☐ You have all the keys/keycards to the property and your studio with you.
- ☐ Your frames, doors, and windows are:  
Clean / maintained / free of damage
- ☐ You have removed all stickers, adhesive plastic, and any residue.
- ☐ You have made sure that there are no holes in:  
Walls / panels / doors / ceiling
- ☐ You have cleaned the curtains and all furniture, and these are free of damage.
- ☐ You have cleaned your air vent, and it is free of damage.
- ☐ You have completely vacuumed your studio.
- ☐ You have removed all personal belongings.

## Step 2: Kitchen

### Tips & tricks before you start with the kitchen:

For cleaning your kitchen, it is best to use a cleaning product that has a degreasing effect such as Dreft. Do not forget to clean the top of the cabinets as well.

[See appendix for recommended products.](#)

- ☐ **The following elements in your studio are grease-free and free of damage:**  
Front door / cabinets / extractor hood / counter top / oven
- ☐ **You have cleaned your extractor fan, and all the lights are still working.**
- ☐ **You have removed all stickers, adhesive plastic, and any residue.**
- ☐ **You have made the sink and water tap in the kitchen lime-free (use Antikal; see appendix).**
- ☐ **You have cleaned your air vent, and it is free of damage.**
- ☐ **You have cleaned your combi-microwave, and it is free of damage**
- ☐ **Your fridge and the freezer department is empty, clean, free of damage, and free of ice.**

## Step 3: Bathroom

### Tips & tricks before you start with the bathroom:

We recommend using Antikal to clean the lime scale in the bathroom. This is best applied on a damp surface. Leave it on for 10 minutes. For the best results, scrub away the deposits with a scrubbing pad, rinse with water, and dry thoroughly.

[See appendix for recommended products.](#)

- ☐ **You have made the following parts in your bathroom mould and deposit-free:**  
Ceiling / shower panels / floors
- ☐ **You have properly cleaned, descaled and cleared the following parts of soap residue:**  
Floors / ceiling / panels / sanitary facilities / toilet / shower drain
- ☐ **The lighting in your bathroom works and is left in good condition.**
- ☐ **You have cleaned your air vent and it is free of damage.**
